

## 12'-0" High Flat Crop Storage - Bunker Silo Arrangement

### **Design Notes:**

- Steve's Rules for Proper Design:  
 Rule #1 - Silo should be proportioned with a minimum of length 3 times the width.  
 Rule #2 - Need to remove 3' of face feed per day to reduce spoilage.  
 Rule #3 - Always cover haylage  
 Rule #4 - Slope silo and floor 1" in 10'-0" to open end  
 Rule #5 - Use T-Walls for future expansion - T-Walls Are More Durable  
 Rule #6 - Improper Use Can Result In Injury

### **Capacities:**

Tons -  
 Pounds -  
 Feed per face inch -  
 Feed per 3 inches -  
 Number of animals fed -

### **Parameters:**

Height -  
 Length -  
 Width -  
 Weight -
